ZIGTAL
UNLOCK COLLECTIVE INTELLIGENCE

GIVE THEM
THE EDGE
OF COLLECTIVE
EXPERIENCE

Meaningful interconnections gives your members deeper insights to win

Zigtal makes it happens by inter-connecting members with experts and mentors within and outside your community.

It is fulfilling to see your members' dreams come true. If you are an institution with budding talent, an incubator, or an angel investor group invested in multiple start-ups, you always want to give your community an edge of collective experience.

Zigtal offers a unique Cloud SaaS platform **COMZIG** that enables your community to transform and explore new dimensions of success by leveraging the member's capabilities and experiences.
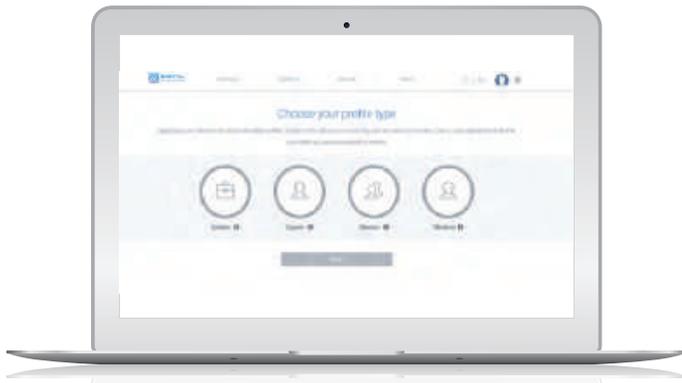

COMZIG empowers members to evolve and enable effective collaboration resulting in unparalleled member experience and improved productivity.

COMZIG
Incubators/University Solution

ZIGTAL has identified that this platform can be extremely beneficial for communities, universities, education institutes, start-up incubation hubs, recruitment businesses, and any organization that allows engagements among people as volunteers and with a fee.

It is suitable for all industries and businesses. The platform offers a unique collaboration and outcome-oriented engagement model, the ability to maintain a work log. It is powered by workflow to ensure alignment on the objective of engagement. Leverage the value of other features such as feedback process, ability to engage multiple experts in a project, flexibility to enable and disable your seeker, expert, mentor, and mentee's roles.

Get the feature of the engagement price negotiation process. It is suitable for The engagement fee negotiation process as a fixed price and hourly rate. Log work hours that are supported by workflow. Learn and earn.

The Four-Dimensional success model

COMZIG allows members to choose from four-dimensional roles to experience and expand their overall capabilities. They can act both as a receiver and provider.

It offers flexibility to choose a single role, any combination of roles, and all roles.

1. Mentors - Providing mentorship
2. Mentees - Receiving mentorship
3. Expert - Providing expert advice to seekers
4. Seekers - Seeking expert advice

This model leads to increased inter-connections, fosters innovation, and a culture of collaborative success.
